

Focusing on “A Taste of ASIAN” culinary experience with local and western favourites, MERANTI CAFÉ offers a delicious “makan experience” using home-grown herbs and ingredients.

Asian cuisines are prepared using a variety of spices and condiments, giving the dishes a rich variation of flavours and aromas. The exotic blend produces distinctive taste – sweet, sour, salty, spicy and bitter that complements and sometimes contrast each other.

MERANTI CAFÉ is inspired by the 100.8metre endangered yellow Meranti tree (*Shorea Faquetiana*), the world's tallest known living tropical tree found in Danum Valley Conservation Area.

Sabah International Convention Centre stands tall and proud leading the environmental sustainability principles, by raising awareness and instigating changes not only within the local community but on a global platform as well.

Located in the "rainforest wing" (Level 3) of the convention centre, MERANTI CAFE is a perfect homage to commemorate the conservation efforts of Sabah International Convention Centre.
